

Along the roadside and at intervals on the walk home, Zilch mini-bins provide the public with an easily-reached place to extinguish and deposit their cigarette ends or to discard rubbish. They provide you with a cost-effective and convenient way to provide a facility for them to do so.

Mini-bins are designed to be mounted on lamp post or other uprights at a height that makes them both visible and easily accessible.

Zilch mini-bins:

- Encourage the public to dispose of rubbish, cigarette ends and chewed gum responsibly
- Reduce the amount dropped litter
- Make it easy for street cleaners to collect the waste
- Are small enough not to obstruct walkways but large enough to be noticed
- Sympathetic to their surroundings
- Are cheap enough to be replaced when dirty or damaged

Each mini-bin is supplied with:

Six tie-wraps (releasable or permanent)

Mini-bin

Shock cord

This is elastic cord is optional and is use to help prevent the bin liner from being blown away.

Stubbing plate

This a piece of curved aluminium punched with holes through which the ties are passed. Being vertically mounted this plate is self-cleaning when rained on.
